SUMMARY OF TEXT

COMPUTATION OF FINES 1727

List of 13 estates where lives fallen in 21 years – 2 are in Doccombe tenements in 1709 & 1713

Doccombe Manor has 15 estates. Each held for 3 lives.

Based on above list 21 lives will fall there in 21 years. So each estate has fallen in 1½ of them twice.

Lord of Manor takes 2 years extended Rent or more to add 1 life to 2.

So in 21 years receives for the 21 lives the whole extended value of the estate 3 times.

3 X £220 = £660
A 21st part of £660 = £31.8s.6¾d which = 1 year's value.

That & ¼ of it should be the fine = £31.8s.6¾d + £7.17s.1½d = £39.5s.8¼d
